Our quality machinery is made
in the United States of America

Welcome to our virtual showroom!
Our packaging machinery is config-
ured specifically for your product.
Every component is designed to run
smoothly and require a minimum of
maintenance. Inquire about various
options and custom configurations.
Contact us for budgetary pricing or a
formal written quotation.

Expert Engineering for Superior Performance!

We manufacture a wide
range of pouch and bag
sealing machinery for
both the start-up company
and the well established
production facility.

Welcome to our virtual showroom!

Pouch and Bag Sealing Machinery

◆ DESIGNED FOR A WIDE RANGE OF APPLICATIONS ◆

Powered by IEEE GlobalSpec
Engineering 360

Spotlight 2019!

We are pleased to recommend
our recently engineered
**Vertical Conveyorized Band
Sealer for Handle Pouches
with Recloseable Zippers.**
This USDA Approved Rotary
Band Sealer includes a 6" wide
x 5' long synchronized lower
support conveyor and non-
motorized roller infeed.
VCBSDM-ET-1/4-6x5 WOLCB
floor model renders a 1/4" wide
seal without trim. Extended
sealing throat allows seal to be
placed between a handle cut-
out and a recloseable zipper.
This sealer uses 1" wide heavy
duty teflon bands as a standard
design. Adjustable height seal-
ing assembly with crank han-
dle. A more "robust" sealer for
handle bag designs and pouches
with recloseable zippers.

Speed and versatility for
handle cut-out bags!

◆ FRESH PRODUCE ◆ SNACKS ◆
◆ NUTRACEUTICALS ◆

Shown above ▲
**Tabletop Conveyorized
Pouch Sealer**

Portable Sealer with synchro-
nized conveyor. Ideal for candy,
confections, snacks, and coffee.
The new crank handle adjust-
ment allows easy seal height
changes from 2" up to 12".
Embossing Coder available.

◆ PIZZA ◆ TORTILLAS ◆
◆ BAKERY ◆

USDA Approved

Horizontal Conveyorized Sealing System

HCBS-1/4CT-Dual-12x8+CP
Dual Heat Rotary Band Sealer
includes bag top trimmer and
vacuum scrap removal.
Compression plate assembly
option shown is available to
remove excess air from the
bagged product before seal-
ing. **High speed production
and greater flexibility with
product sealing for "lay-flat"
packages.** Click the video icon
to see the HCBS in operation
with a 45 degree angle tilt.

Validatable for Medical Pouches

Validatable Conveyorized Model ▶

Medical Pouch Sealer is
supplied with verification
ports for process validation
of pressure, speed,
and temperature.

VCBS-3/8-DH-10-Validate

Complete, visible validation
for medical pouches. Single line embossing coder available.
3/8" wide hermetic seal. Dual heating and dual cooling bars.
Includes a synchronized conveyor and self-contained air
compressor. *Seals Tyvek® pouches up to 40 feet per minute.*

Fully Framed Validatable Stand Model

Includes crank handle for
height adjustment of sealing
head to position over existing
variable speed conveyor.

Shown below ▼

Validatable Tabletop Model

Designed for lightweight
products and smaller pouches.
Topstop guide shown is an
available option to assist with
seal alignment.

Visit us!

APM will be exhibiting at EAST
PACK in New York, June 11-13
and PACK EXPO International
in Las Vegas, September 23-25.
It is a great opportunity for you
to attend and speak with our
experienced engineers to learn
more about our pouch and bag
sealing equipment. Many differ-
ent models are available for
diverse applications such as
meat, poultry, seafood, bakery,
snacks, medical, pharmaceutical,
industrial, pet products, textiles,
paper goods, and many more!
FREE exhibit hall admission
passes are available. Please call
us or email us for additional
details. Bring your products and
bags for a demonstration. ◆

Sample seals show our
quality. Simply send us the
actual product and the actual
pouches or bags for
evaluation. We are always
happy to help you select the
best model and provide a
detailed quotation for you
within your budget.
